**RESPONSE TO RESTRICTION REQUIREMENT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In response to the Office Action mailed September 7, 2006, Applicants provisionally elect with traverse Claims 1-11.

Reconsideration of the Restriction Requirement is respectfully requested on the grounds that a prima facie case of independence and/or distinctiveness sufficient to satisfy 35 U.S.C. § 121 and MPEP § 806.05(d). In particular, the Office Action has not set forth how the separately grouped claims meet each of the criteria set forth in MPEP § 806.05(d), particularly as all the claims are directed to a motor control device in Class 318. The mere suggestion that they are classifiable in different sub-classes does not satisfy the overlap/obvious variant required showing.

Applicants also provisionally elect the species of Fig. 2 upon which Claims 1-11 are deemed readable.

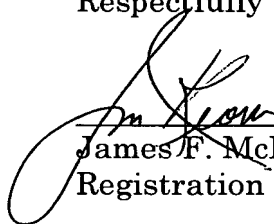

An early action on the merits of all the claims is earnestly solicited.

If there are any questions regarding this response or the application in general, a telephone call to the undersigned would be appreciated since this should expedite the prosecution of the application for all concerned.

If necessary to effect a timely response, this paper should be considered as a petition for an Extension of Time sufficient to effect a timely response, and please charge any deficiency in fees or credit any overpayments to Deposit Account No. 05-1323 (Docket # 056205.53967US).

Respectfully submitted,
